THE ELECTION.

THE CHURCHES AND CLERGY OF CHICAGO.

NO. 5.

GRACE CHURCH.

REV. LYON L. DOSKE, RECTOR.

In the spring of 1851, a difficulty having arisen between the vestry of Trinity Church in this city, and the Rector, the Rev. C. E. Swope (to which we alluded in our article on Trinity Church) the latter retired from Trinity, and organized a new parish out of the Congregation. They organized a new parish, under the title of Grace Church, and elected as Rector their former pastor.

On the 19th of April next ensuing, the congregation of Grace Church worshipped for the first time in their new edifice, which was commenced in the Autumn of 1853, and finished in October, by Bishop Whitehouse. The building is of the north-west corner of Michigan and Dearborn Streets. It is a plain wooden edifice, standing simply a nave and chancel, and is built from a design by Mr. Upjohn. It is of the pointed gothic style, with open timber roof. By the addition of transept and chancel in progress, it will be made a cruciform, and the spire will be greatly improved. At present the building has rather an unfinished appearance. The interior is plainly but neatly and tastefully finished.

In the autumn of 1853, Rev. Swope, leaving his parish in the charge of Rev. John McNamar, repaired to the South for the benefit of his health. Mr. McNamar, on his return, in the fall of 1854, resigned the charge of the parish, and it became necessary to elect a successor. The vestry, on the 1st of April last, unanimously elected Rev. Lyon L. Doske, the present rector, who was ordained in his office on the 1st Sunday in this month.

As a gentleman and a Christian Minister, he is deservedly held in the highest affections by his people. He was a fearless and diligent pastor, and a sound, pleasing and effective preacher. He was quiet, young man, Grace Church being his first charge, and he was ordained in his office, and organized them with great boldness and without reserve.

The Rev. Lyon L. Doske, the present incumbent, entered upon his duties as Rector of Grace Church late in last June, the Rev. J. McNamar, removing to Kansas as Missionary at large. Mr. Doske is the first son of the latest addition to the clergy of our city. He has been now for about a year that the public has had an opportunity of forming an opinion upon his merits. We are glad that he has made a very favorable impression upon a very large circle of acquaintance, and has firmly fixed himself in the affections of his small but excellent and rapidly increasing congregation. He is a native of the State of New York, and a graduate of one of her colleges. After completing his collegiate course, he studied divinity in the Episcopal Seminary at Alexandria in Virginia. He has pastoral charge too in the State of North Carolina, and from thence he was called to take charge of Grace Church.

During his residence at the East, Mr. Doske acquired some literary reputation both in his practical and prose writings. He is now, we should think, about thirty-two or three years of age.

Dwelling in mind in our own impressions alone for a description of Mr. Doske's style and manner of speaking, we should say, a good share of his congregation, of high literary qualities, and in every way qualified to give a correct idea for his opinion on that point. He gives it as his opinion.

"Mr. Noble's division is pure, finished and forcible; his elocution clear, forcible and graceful, and his manner is that of a man who has a strong literary satisfaction and an intellectual effort in making a good sermon, and a part of the high profession. His manner is free and dignified, earnest and persuasive, and wholly free from any trick of elocution or gesture. He speaks with a distinctness a little too leisurely, his style thinking and his delivery deliberate.

He draws his effects immediately to the understanding and through it appeals to the feelings. He is a clear, forcible, and pleasant reasoner. He is a man of a good deal of reading, and a tasteful picture of the preaching and teaching of the, of man's lost and fallen condition, of the Christ, the redeemer of the world, of the Holy Ghost, and of our blessed hopes of immortality. He is a man of a good share of his blood, to capacity, the tried and understanding, and to inspiring a deep and earnest conviction to bring the hearer to a decision that he has made up his mind.

We take but a single exception to our friend's remarks. We think there is a trifle of the Ex-Cathedra in his style, which would over disfigure the pulpit oratory. The members of the Episcopal Church are strongly attached to their, and, in their precious home when man, in the pulpit, is the mere mouthpiece of God, it should be the mouthpiece of God, and nothing else. We, for one, would not have it, if we could, be the mouthpiece of God, and nothing else.

A Person of Prominence Passes Death.—Mr. Elizabeth A. Bellell, widow of Gen. John Mc-Neil, and sister of President Polk, died in Cincinnati, N. E., on Wednesday, aged 42 years.

Supreme Judgeship in Wisconsin.—The election of Associate Supreme Judge for the State of Wisconsin, was held in that State on yesterday. Orsamus Cole was the Republican, and Alpheus Felch the Democratic and Anti-Nebraska candidate.

Mr. Hunter, the "authoress" of the Maine Law, and other measures, has arrived in St. Louis. The ships at the City Hotel. She is going to Cassell Bluffs to settle. We believe she takes her husband along.

MONETARY AND COMMERCIAL.

Attend & Co. No. 8 Well st., paid on yesterday the interest on the bonds issued by the Illinois and Mississippi Railroad Co. maturing on that day.

It has been frequently urged by those intelligently in the Illinois Central Railroad Co. that the Company would find it important to sell their lands at the reduced rates, because the Government had millions of acres of adjoining sections for sale at $1.25 per acre. The Legislature of Illinois has recently passed a law empowering the corporation of the official report from the Land Commissioner at Washington showing large sales of lands. In the year ending the 30th of June last, statistics have been obtained from the various land offices on the line of the Road, which show that out of 2,191,000 acres, covering 11,000,000 acres, there remain unsold of Government lands only 251,700 acres, equal to about 15 1-4 townships out of over 400—and these lands have not reduced the price of adjoining lands in any instance. Of these acres, 174,400 are within six miles of the road, and 75,300 within fifteen miles. The Company's Board have just received from Government official sources a list of the Public Land still subject to entry within six and fifteen miles of their Road, at $1.25 and $2.50 the acre, and the result is very much below the general estimate, which had been formed of the Government land in the line of the work. In the Chicago Land District there are no public lands now subject to entry, within 15 miles of the Road, and the whole extent of the Land Districts, Danville, Kankakee, Vandalia and Dixon Districts is 174,600 acres or 11 townships, subject to public entry, within 15 miles, at $1.25 per acre, and within 15 miles at $2.50 the acre. This being the entire immediate acquisition of the Government along a line of 704 miles, as against 3,355,000 belonging to the Company, the land policy of the Government is totally rendered a more favorable view than is the fight which it has heretofore been held by many persons, who doubted the feasibility of the Company's undertaking, while the alternate sections subject to common entry at very low rates. It is certain that private speculators as well as settlers have been very busy within a year or two, since the road was laid out in locating Land Warrants and in making cash entries on Government terms.

Temperance Lecture.

In reply to a request made by the Friends of Temperance in the Northern part of the West Chicago Temperance Hall, a number of gentlemen have left their names with the Editor of this paper, who hold themselves ready to Lecture upon the Temperance question. Those interested can obtain information by addressing the Editor, at this Office.

Special Issues.

GEO. BUTLER will open *five* lectures upon Spiritualism at Sacred Music Hall, on Wednesday, (this evening) at 7 1/2 o'clock.

Mr. Lemaire's Readings.

Our citizens will remember that Mr. Lemaire will give her first entertainment here this evening at Temperance Hall. We have seen this spoken of some length of this lady, and of her exceedingly merits as a reader and elocutionist, and we trust that no one who is capable of appreciating true merit and genius in this line, will fail to go to hear her this evening. We can guarantee to them a rare and most delightful treat. Tickets will be for sale to-day at the principal Book and Music Stores. For particulars see the advertisement.

NEW LICENSES.

The names of the persons to whom licenses have been granted are, Capt. Quackenbush, Mr. Tay, (Market,) J. B. Wheeler, Fremont House, Andrew Bell, J. V. Sanders, (two places) Porter, Conley, Peter Conley, Willard and Stephens, Joseph Gage, (two places) Mr. Simpson.

We are happy to see the bar at the Theatre closed, and crape affixed to the door, over a pictured bearing the inscription.

"WHISKY IS DEAD."

The license expired on the 1st of the month, and Mr. Rice would not allow the bar keeper to have it renewed. If anything *could* add to Mr. Rice's popularity here, such a step would do so. Chicago may now pride herself upon having one of the best managed theatres in the Union in her midst, *without a drop of whiskey sold on the premises.* Hurrah for the Temperance bar! Mr. Rice will find that he never did anything that will pay him better than the simple act of shutting up that bar.

Another Liquor Selling Case Dismissed.

Peter Carolton, keeper of the "Travelers House" on North Water street, between Clark and Dearborn, was brought before Justice Milliken yesterday morning, charged with selling liquor on Sunday. One witness testified that he saw through the window a man had a wooden behind the bar; that the man reached down from the bar a bottle of what appeared to be whiskey; that a man who was standing outside of the bar, presented some of the liquor out into another and drank it. The witness could not swear that it was liquor, that the man behind the bar was Carolton, or that the man who drank the liquor paid for it.

The bar keeper testified from his own personal knowledge, that there had been no liquor of any kind in any of the bottles since Saturday night; that there was no liquor in the bar on Sunday; that there was some toddy at the bottom of one of the bottles; that one of their inmates, a Frenchman, came up to the bar and wanted his mixture as usual; that this bottle was handed down to him, and that into it a little water had been poured for the purpose of deceiving him; that he poured out the liquid and drank it.

The case was dismissed.

WHO WAS SOLD.

A friend of ours stepped into a drug store yesterday, and as he received his change upon a bill, ventured to the inquiry of the "head of the concern," "if he had seen any of the new currency—*three pieces to a dollar?* "No" said he seriously, "Well," replied the Wag, "have you seen any of the new currency *peg to a dollar?*"—"Very convenient change," coolly replied the druggist, but these "quarters" will for *twelve and thirteen cents* in New York. I have one here which I intend to show to some of my friends to-day." "Done," said the wag, "and as I am not particular, I will give the highest price, thirteen cents." "Yes," said the druggist, "will hand it out handsomely" "I've *twelve*, and *thirteen cents*" is what they call for, how many will you have?" "Ten."

To Our Wholesale Merchants.

Mr. William C. Talcott, the editor and proprietor of the Valparaiso (Indiana) Observer, a Daily, Tri-Weekly and Weekly paper, is now in our city, and will call upon the Wholesale Merchants of this place to obtain from them advertisements for his columns.

The *Observer* is the only paper published in Porter and Lake counties, and is the best medium for reaching the people of that section of Indiana—a section unrivalled by any part of that State for the wealth and intelligence of its people.

The merchants of those counties are yearly more and more inclined to visit Chicago for the purpose of making their purchases, and if the advantages which our wholesale houses can afford them are properly brought to bear them the entire trade of the two counties can be brought and retained here.

Our merchants will do well to embrace this opportunity of advertising. We commend Mr. Talcott to their attention.

Balls on the Tapis.

A Fireman's and Citizens' Ball will take place at the West Market Hall, this evening, at which Firemen are expected to appear in uniform.

The Sumner Guards give a military ball at the South Market Hall on Monday evening next, April 9.

The Shield's Guards will give a military ball at the North Market Hall on Tuesday evening next April 10.

Lost.

On Monday evening, a brass cab key. Any person returning the same to this office will be suitably rewarded.

THEATRICAL.

Mr. McFARLAND was greeted on the night of his benefit last week, with the largest house we have seen at Sable's since the walls of the Theatre came down. The plays, the Christian Brothers and the Honeymoon, passed off pleasantly enough, the acting of the first play the best we have seen, both rewarded and applauded, and calls for Mr. McFARLAND, in response to which the green curtain went up and Mr. Rice appeared upon the stage holding in his hand a card address. He said that with the permission of the audience he would introduce an episode not down in the bills. This was to see Mr. McFarland in the benefactory of the evening of a beautiful gold watch, which was presented to him by a member of the gentlemen of this city, some of whom were now present. Mr McFarland then opened and read the address which accompanied the watch, and when the applause which greeted this had in some measure subsided, Mr Rice addressed him in an appropriate and neat address, presenting him at the close with the watch. Mr McFarland replied in a speech of some length, in which he spoke of the ingratitude and want of an actor's life, of how little that life was understood by the great mass of the public; and how disheartening that crushing was the coldness and indifference with which the best and most earnest efforts to please were often received. He also expatiated upon the peculiar and additional cares attached to the station of Stage Manager, and spoke of the universal tribute to the able and careful support he had received in that capacity from the members of the stock company. He closed with some appropriate word of gratitude and thanks to the donors of the beautiful gift which he held in his hand, and to the audience for their kind and flattering appreciation of his efforts to please them, and retired, amid a shower of enthusiastic cheers and applause.

The watch presented to Mr. McFARLAND is a massive gold hunter, plain case, and of the most approved workmanship. The inscription on it, it was engraved by J. J. O'HANNAHY, and it beautifully done. The chain attached to it is neat and the whole establishment creditably adhering to the good taste of the donors.

Selling Liquor on Sunday.

George Smith, the keeper of the Blue Island House, corner of Green St and Van Buren Sts, was brought before Justice Milliken yesterday morning on a charge of keeping open his bar and selling liquor on Sunday in violation of the City ordinance. The only fact that appeared against him was that a man had been seen to take down a square bottle from his bar, to pour something out of it, and to drink it. It was proved on the part of the defence, that Smith kept a boarding house; that one of his boarders kept a square blue bottle in the bar in which certain roots were steeped in whiskey, and that this boarder it was who had poured out and drank a portion of his favorite medicine. That the bar-room had been kept locked all day from morning till night; that Smith had entirely changed his occupation to *sell no liquor on that day*; and that the injustice had been unequal.

Of course the defendant was discharged. He was defended by Mr. Crocker.

The Inside City Missionary Association will meet in the Basement of the First Presbyterian Church, Wednesday, April 4th, at 3 o'clock P. M. The attendance of all before interested in the enterprise is desired.

HAVE YOU SEEN SAM?

He will be seen at the Theatre to-morrow night! Go and look at him. Go and look at him. Not at the simplicities and invisible, but at the pleasant, good, genial, jolly and excellent Sam—SAM MYERS. His friends takes place to-morrow night. Let all of Sam's friends be on hand.

CANAL OPENED.

Yesterday the first official notice of the season was given for clearance to leave upon the Illinois and Michigan Canal. Two boats cleared for Lockport yesterday and others would have cleared for the same but were not permitted to do so till to-day. Quite boats with wheat for the south and with lumber and merchandise will clear today for La Salle and we may expect to hear from the other end of the Canal and of boats coming in a day or two, bringing cargoes of Corn, Oats, Flour, Groceries, &c., &c., to be shipped to everything depending upon that navigation.

New and Elegant Millinery, Etc.

Choosing to drop into the Bonnet Rooms of W. K. Grove, 97 Lake Street, opposite the Tremont House, we were astonished at the array of beauty which met our gaze. We found that Mr. S. has just returned from the East, and was then opening an unusually large and rich assortment of Bonnets, Ribbons, Flowers, Trimmings, &c., which were hung round the ample rooms in glorious profusion. We were particularly struck with the elegant and tasteful appearance of the new styles of bonnets for the Spring, which we regard as a very great improvement on anything we have seen for some time. Without presuming to dictate to the ladies, we think that "the fine apparel, we do think that we know what is neat and pretty, and that we found things which pleased us amazingly at Mr. Grove. We recommend our ladies to visit the establishment for themselves. They will have to be fastidious indeed if they are not pleased with his goods and charmed with his prices.

NOTICE.

The commissioners sent to Eagle Company No. 4, at their last meeting, without signature, was passed over without any notice, the Company not feeling called on to regard anonymous letters. If the writer will come forward and give his name in his communication, it will be attended to at a special meeting.

THE STATE TAX TO BE PAID IN CHICAGO.

THE COUNTY AUDITOR AND THE WEEKLY JOURNAL AGAIN.

All our readers will remember the old lumbering chest we once complained, and it will be found in a short time. As we stated some days ago, it will be found from the Journal office, and will be offered for sale on Monday and will remain in the Sheriff's office, who has for some time past been out of the Official business. We regret that he could not have found a better way to pull, on Monday, and thus to pull the people of the State back into the gulf of misery, destitution, poverty and crime, from which they are striving so hard to escape.

The publication of the "Cordial Advertiser" will undoubtedly commend themselves to the mass of our German citizens, as we have the most positive assurance that the time of it will be decidedly Dutch.

MR. JOHN COOKE AT HOME.

It will be remembered that the vote of Hon. Gustave Koerner, Lieutenant Governor from Kankakee county, for Gen. Hallonan, instead of Judge Breese, was cast in the Senate, on the ground of being opposed him, in 1851 county. Mr. Breese is defeated himself on the ground that his vote was cast against Gen. Shields, in 1845. In contradiction of this, the Governor of Kankakee county, all of whom are Republicans, at the recent meeting of the Board, passed the following resolution, which we copy from the Kankakee Gazette:

Resolved, By the Board of Supervisors of Kankakee county, that the whole legislature although Democrats, are entitled to the thanks of the Independent Democrats of this State, for their noble conduct in the Senatorial election.

WEATHER AND HORSES, SOUTH.

Mr. Ford from a Shell, dated Vicksburg, Mississippi, March 14, says:

"We have had an unusually cold and dry winter. Feather are now in blossom. The river has been very low until within the past ten days. It has now risen about twenty-five feet, and is yet rising rapidly."

"The cause of Temperance is taking a deep hold in this country. There are 20 Lodges of Good Templars in Mississippi, and the time is not far distant when this State will be numbered with the sons of Illinois, Indiana, Maine and others that have taken the lead in this good work. Many soldiers have in the cause of Temperance."

THE CASE OF THE SLAVE GIRL ROSETTA.

The case of the Slave Girl Rosetta, who was recently rescued from Slavery in Chicago, is now before the court of the public. Although the matter are already familiar with the facts of her being taken before the Supreme Court, she persuaded her a Free Girl by victim of the Laws of Ohio, and with her entrapped as a Slave, and brought Judge Parker on a writ of Habeas Corpus to test the legality of the imprisonment by reason of the Constitution. Some time ago, the Supreme Court, in a case of precisely the same character, decided against the legality of the Judge holding a prisoner, on this Rosetta, and taking her whether she wished to return to slavery or not. Mr. Chief Justice Walker, held that when a person claimed to be a free person, and was illegally detained, was at least, a very highly important question, and ought to be fully met, be treated like in any other case. The Judge held a contrary opinion, and decided against the claimant. The case is now before the court. The case, however, provided, Mr. Van Sleight, the gentleman appointed for the girl in Chicago, instead of the Hon. Judge of Mr. Breese, to be the Judge of the Supreme Court, who has not that power, when he gave her the opportunity to decide whether she would be free, or would return to Virginia and Mr. Breese, who is "dead to be free," and then Rosetta left her.

For the defendant, it had been proved that Rosetta had been taken from Virginia and Kentucky to Ohio, and from Ohio to Illinois, and in the state which Theodore held his agent, Mr. Breese, in telling the girl to Virginia—Rosetta's discretion, however, was not clear. Rosetta's discretion, however, was not clear, and she was persuaded to accompany her master through Ohio, and get escaped at Columbus.

Mr. Chief Justice Walker, and the court, have in the case, on behalf of the girl. Mr. Breese, defendant in error, for the defendant, contended to argue the case, saying that they should rely upon their rights in the court of the State of Illinois, and that the Judge Parker had such Court decided to decide. A telegraphic despatch from Cincinnati brings us the result of the case:

CINCINNATI, April 5, 1855.

Rosetta, a colored girl, who was some time since brought into the State from Kentucky, by an agent of her owner, who is said to be in Cincinnati, Ohio, and is claimed by a Judge Parker, who claimed to be her master, but was discharged by the Supreme Court of Illinois, on the ground that the Judge had no right to be her master, or to be her owner, or to be her guardian. Some similar case was recently decided in Ohio, and the decision was to return her after the decision, and the girl was given up to her master, and she was only assigned to the care of her friends."

We have not space to give a false coloring to the matter, we can state that a day of mine has been about six weeks at school altogether, and during that time he has lost sixteen more caps and a hat, and is nearly sent home. Yet he is not one this is a rollicking character, the manners of the three boys. This girl, Rosetta, was placed in to be a Free Girl by victim of the Laws of Ohio, and with her entrapped as a Slave, and brought Judge Parker on a writ of Habeas Corpus to test the legality of the imprisonment by reason of the Constitution. Some time ago, the Supreme Court, in a case of precisely the same character, decided against the legality of the Judge holding a prisoner, on this Rosetta, and taking her whether she wished to return to slavery or not. Mr. Chief Justice Walker, held that when a person claimed to be a free person, and was illegally detained, was at least, a very highly important question, and ought to be fully met, be treated like in any other case. The Judge held a contrary opinion, and decided against the claimant. The case is now before the court. The case, however, provided, Mr. Van Sleight, the gentleman appointed for the girl in Chicago, instead of the Hon. Judge of Mr. Breese

LOCAL MATTERS.

CHILD LOST.

A Boy about four years old, wearing a check apron, and named Charley, left his home about 3 o'clock P. M., yesterday evening. Any person returning such child, or giving any information at the Police Office as to his whereabouts, will receive the thanks of his afflicted parents.

Temperance Lecture.

In reply to a request made by the Friends of Temperance at a late meeting of the West Chicago Temperance Union, a number of gentlemen have left their names with the Editor of this paper, who are all prepared to lecture upon the Prohibitory Liquor Law when called upon, or to procure the services of others to fill appointments. Those interested can obtain all information by addressing the Editor, at this Office.

Our thanks are due to Judge Douglas for a pamphlet copy of his speech in the Senate on the bill reported from the Judiciary committee to protect officers and other persons acting under the authority of the U. S. Laws exactly as of our Minister's speeches, it is able, and its ingenious sophistries are eminently calculated to deceive. We have not published either Mr. Stewart's or Mr. Sumner's speeches on the same subject, and shall not, therefore, occupy our columns with that made by Judge Douglas.

Cattle and Hogs.

A fine drove of 112 Beef Cattle from near Monmouth, Warren Co. arrived here yesterday for Eastern shipment.

A sale of 95 fat live hogs was made yesterday at 5½ gr 100 gross, delivered to city packers at Southern Hotel next week. There appears to be a scarcity of Pork in the country, as well as of fat cattle.

Alderman Asahel Dey, recently elected Alderman of the Eighth Ward, has been appointed Register of the Land Office in this city. The office is to be closed soon, but we doubt not Mr. A. will be appointed far before that time arrives. He is a straight-out Baltimore platform Northern Democrat, and goes for the Administration of Mr. Pierce without any mental reservations—He also disclaims all sympathy with that other Sam who has lately been cutting up fantastic tricks and gaining great notoriety throughout the U. S.

Meeting of the Board of Trade.

There will be a meeting of the members of the Board of Trade at their rooms, corner of South Water and Wells streets, on Monday evening, April 9th, at 7½ o'clock.

A LAWYER IN CONTEMPT.

In the Recorder's Court yesterday, during the trial of the case brought by the trustees of the propeller St. Joseph, against that craft for wages, while Mr. C. B. Waite, a lawyer of this city, was speaking, the Recorder ordered him to sit down. Mr. W. refused, when the Recorder again ordered him to sit down and not rise from his seat unless he wished to be fined for contempt. Mr. Waite refusing to pay, the Recorder committed him until the fine should be paid. A writ of habeas corpus was sent out, and, which will be tried before Judge Morris this morning.

LAKE STEAM BOATS.

There are now three steamers plying between this port and Port Sheldon, Southbend of Milwaukee and other lake ports. One of these leaves our dock every morning, and the other every other evening. The *Pacific, Arctic*, and *Traveller* are there now on the line, and the *Crossland* will also be put on it as an evening boat in a couple of weeks. The *Superior* is also running between these points. She and the *Traveller* arrived yesterday, and the *Pacific* left last evening.

Beautiful Process.

We are pleased—as no doubt the public will also be,—to notice that our friend, Capt. Yer-dessimer has sufficiently recovered from the illness which confined him for some months, to resume his station in his beautiful Daguerrian establishment, No. 142 Lake street. The Capt.ain is an Artist of unusual skill, and like nearly all such, is too modest to claim for himself what we are sure a discriminating public will award him. We have seen the work of many of the first Artists in the United States, and have no hesitation in saying that none more deserved and obtained the highest meed of public appreciation for particular specimens, some have turned out a class of pictures which will, as a whole, rank with those that have come from the gallery of our friend Capt. S.

We would suggest to those who desire to get life like images of dear friends and relatives, that there is no season more appropriate for doing so than the Spring and first Summer months. After then comes the hot season, when the prevalence of epidemics and other diseases make it often too late. Only those who have neglected to avail themselves of the services of the Artist, and then lose the most cherished of all mementoes, are capable of understanding the pang of regret which neglect of this sacred duty brings to the unmoving heart.

Professor Shaw's Portion.

Professor D. S. Shaw is giving a series of Collision Parties on Friday evenings, at Room No. 16 Metropolitan Hall, which are very numerously attended and highly popular. They are conducted in the most inoffensive manner.

SOUTH CLARK STREET.

Workmen called us on yesterday to ride down to the R. I. Freight Depot, but we never should have got there had we not left Clark street after getting a few streets below Quincy. We never saw such a horrible quagmire as this thoroughfare just this moment. It is a disgrace to the city. Our representatives of the city and of our city government, let us have this and the other streets of the place cleaned forthwith. Common decency, regard for health, and respect for our good name demand it.

TO MERCHANTS.

We think attention this morning to the advertisement of "J. S. B.", a young man who wishes a situation in a retail or wholesale grocery store. He possesses every quality necessary to please the employer and to make a valuable clerk.

COUNCIL PROCEEDINGS.

The Common Council held a special meeting on Wednesday evening, in pursuance of a call of the Mayor.

The Mayor stated that he had called the Council together to consider the subject of licenses, as many petitions had been sent in, and parties were anxiously waiting the action of the Council.

The Council then went into Committee of the Whole on the petitions, Ald. Williams in the chair.

A petition was then taken up, in reference to reduction of license on teams used for running for hire.

Ald. Ward offered an ordinance relating the rates as follows:

Hack omnibuses, $25

Omnibuses running in regular lines, 20

Hack-spy coaches, etc., 15

Cabs, etc., 10

Baggage and Express Wagons (3 horse) 15

Baggage and Express Wagons (1 horse) 10

Stevedore Wagons (4 horse), 20

Two-horse Carrytalls, 5

One-horse Carrytalls, (1 horse) 3

Ald. Ward presented his views in favor of the ordinance he had introduced, forcibly, and fully.

Ald. Grainger moved to lay Ald. Ward's ordinance on the table, and take the ordinance introduced by the Council and reported from committee.

Ald. Scatch moved to make hack omnibuses $15. Lost.

Ald. Sexton moved to make omnibus lines $15. Lost.

Ald. Sexton moved to make two horse hacks $20. Lost.

After protracted debate and numerous motions, the amounts were fixed as follows:

The amount for cabs was fixed at $25; baggage, express and express wagons with two horses, $15; one horse do., $10; four horse stevedore wagons, $20; grain wagons, $10; drays, $15.

Ald. Sexton offered an amendment to sec. 4, providing that nothing in the ordinance should apply to any private vehicle not used for hire, or to the carriages of livery stables. Lost.

Ald. Church moved to set aside section 5 in the clause in reference to omnibuses running in connection with hotels, the words "provided that one baggage wagon for each of said omnibuses shall be licensed on payment of the usual fees to officers. Carried.

Also, that the words, "for more than one year" in the last section of said ordinance be stricken out. Carried.

The committee then rose and reported progress.

The ordinance as reported back by the Committee of the Whole was read, and Ald. Williams moved to lay on the table until the next regular meeting and order to be printed. Carried.

Ald. Granger offered an order that the issue of licenses under the ordinance proposed to be amended, be suspended until after the next meeting of the council. Carried.

Ald. Hilliards from the committee on licenses reported adversely to making any change in the ordinance relative to grocery licenses. Carried; and the council adjourned at 12 o'clock.

Fire.

About 12 o'clock r. m. Wednesday a small barn in the rear of premises on Bufalo near Tyler street was burned with its contents of hay and grain, a little partaking to the flames. The property was uninsured and belonged to Byrd Parker—a well known and respected colored citizen. Inconsiderate was the cause, and suspicion has fixed upon the public—perpetrator. The night was very still, and fortunately the fire was confined to the building in which it originated.

The fire department were promptly on the spot, but there was some delay in getting water, did little beyond playing on the ruins.
